Off-Campus Centre of Nitte (Deemed to be University)
Fifth Semester B.Tech (CBCS) Degree Examinations

December 2025

BT1202-1 – FORENSIC SCIENCE AND TECHNOLOGY
(For BT)

Duration: 3 Hours

Max. Marks: 100

Note:

Part – A: Multiple Choice Questions: Answer all **Twenty** questions in the **OMR Sheet** provided. Each question carries equal marks.

Part – B: Descriptive Answer Questions: Answer **Two full** questions from **Unit I and Unit II** and **One full** question from **Unit III**.

PART - A: MULTIPLE CHOICE QUESTIONS

20 Marks

1. The main objective of forensic science is:
A) To apply science to law
B) To find fault
C) Provide psychological support
D) To guess criminal
2. Locard's exchange principle states:
A) Crime is witnessed
B) Every contact leaves a trace
C) Every trace leaves a contact
D) Every criminal in the scene
3. Who is considered as father of modern forensic science ?
A) Edmond Locard
B) Francis Galton
C) Alphonse Bertillon
D) Rober Hooke
4. Which of the following is NOT a branch of forensic science?
A) Forensic dentistry
B) Forensic astrology
C) Forensic biology
D) Forensic toxicology
5. What does a forensic toxicologist primarily analyze?
A) Ballistics
B) Poisons and drugs
C) Blood splatter
D) Pollens
6. Which area of forensic science deals with handwriting and signature analysis?
A) Forensic chemistry
B) Scheduled drugs
C) Questioned document examination
D) Explosives
7. What test is commonly used as a presumptive test for blood?
A) Luminol test
B) Kastle-Meyer test
C) Takayama test
D) Teichmann test
8. Which enzyme is most commonly tested for in forensic saliva?
A) Pepsin
B) Urease
C) Amylase
D) Lipase
9. What is the first step in any digital forensic investigation?
A) Identifying potential evidence
B) Data recovery
C) Evidence acquisition
D) Evidence preservation
10. Which of the following is NOT typically found in mobile device forensics?
A) SMS
B) BIOS password
C) GPS data
D) App data
11. What type of data is considered VOLATILE in digital forensics?
A) RAM
B) Email
C) USB
D) Hard disk

12. For digital evidence to be admissible in court, it must be:
 A) Easy to read B) Authentic, reliable, collected legally
 C) Decrypted D) Popularly accepted
13. What is used to verify that digital evidence has not been altered?
 A) Metadata B) Hash value
 C) File size D) All of these
14. Finger print scanners are used in digital forensics to:
 A) Scan barcodes B) Monitor mail
 C) Authenticate users to secure systems D) Blood group detection
15. What does DVR stand for in CCTV systems?
 A) Digital video recovery B) Digital video recorder
 C) Device visual record D) Direct video resolution
16. What is the role of CMOS sensor in a digital camera?
 A) Store data B) Focus lens
 C) Convert light into electronic signals D) Provide power
17. Ethical misconduct in forensics can result in:
 A) Rewards B) Case resolution
 C) Improper justice D) promotion
18. Ethical forensic scientists should avoid:
 A) Providing objective findings B) Scientific protocols
 C) Sticking to facts D) Withholding unfavorable evidence
19. Which of the following is a key principle in forensic ethics?
 A) Team making B) Profit making
 C) Confidentiality D) Biasing
20. Who enforces ethical standards in forensic science?
 A) Police officers B) Lawyers
 C) State organization D) Regulatory bodies & professional organizations

PART - B: DESCRIPTIVE ANSWER QUESTIONS

	Unit – I	Marks	BT*	CO*	PO*
1. a)	Define forensic science. Explain its importance in the criminal justice system.	8	L*1	1	1
b)	How is forensic odontology used to identify disaster victims? Explain.	8	L2	2	4
2. a)	Discuss the contributions of Sir Francis Galton to forensic science. Why is he considered important?	8	L1	1	1
b)	A woman is found dead in her apartment, having bruises on her arms and neck. Also blood is seen on the floor. What type of forensic experts need to be involved? How forensic science help in determine this case?	8	L2	2	4
3. a)	Discuss the role of forensic science in crime scene investigation. What steps are involved?	8	L1	1	1
b)	A suspect denies involvement in a robbery, but a mask containing hair is found at the scene. How can forensic science confirm identity? Explain.	8	L2	2	4
	Unit – II				
4. a)	During a cybercrime investigation, what steps should a digital forensic examiner follow to recover evidence?	8	L2	3	4
b)	Give details on the type of scanners used and their importance.	8	L2	4	4
5. a)	What tools are used in digital forensics? How is digital forensics used in financial fraud cases?	8	L2	3	4

BT1202-1

SEE - December 2025

b)	Give the applications of CCD in digital systems.	8	L2	4	4
6. a)	What are volatile and non-volatile data? Discuss on the benefits of these in digital forensics.	8	L2	3	4
b)	What is chain of custody? Explain its importance in the investigation protocols.	8	L2	4	4

Unit – III

7. a)	What ethical responsibilities do crime analysts have toward the community?	8	L1	5	8
b)	How can forensic professionals uphold ethics in their work?	8	L1	5	8
8. a)	How can forensic labs ensure competence and prevent errors from inexperienced staff?	8	L1	5	8
b)	How do CAC and AAFS guidelines help improve forensic investigations?	8	L1	5	8

BT* Bloom's Taxonomy, L* Level; CO* Course Outcome; PO* Program Outcome
