

NMAM INSTITUTE OF TECHNOLOGY, NITTE
(An Autonomous Institution affiliated to VTU, Belagavi)
Seventh Semester B.E. (Credit System) Degree Examinations
January 2023

Duration: 3 Hours

Max. Marks: 100

*Note: Answer **Five full** questions choosing **Two full** questions from **Unit – I & Unit – II each** and **One full** question from **Unit – III**.*

Unit – I		Marks	BT*	CO*	PO*
1. a)	List and explain any 5 Java Buzzwords in detail.	5	L*2	1	1
b)	What are the restrictions for a static method? Write a java program to demonstrate the working of a static method.	5	L1	1	1
c)	Build a Java program to define a class and implement the following overload methods: i) add(a, b) where a and b both are of integer data type and the method has to return integer value of a+b. ii) add(a) where a is an integer data type and the method has to return integer value of a+a.	10	L3	2	2
2. a)	Demonstrate the usage of command line arguments in Java.	5	L3	1	1
b)	With example explain the concept of call by value.	5	L2	2	1
c)	Explain method overriding with the help of an appropriate Java program.	10	L1	2	1
3. a)	With the programming example demonstrate the concept of default and parameterized constructor.	5	L2	1	2
b)	Outline the concept of abstract class.	5	L1	2	1
c)	Write the truth table for all the bitwise operators in java. Consider a=6, b=3. Apply the bitwise operators on a and b. Print the result.	10	L3	1	2
Unit – II					
4. a)	Explain 2 ways of creating a thread in Java.	5	L1	4	1
b)	Show how you make use of throw keyword using simple Java program.	5	L2	3	1
c)	What is synchronization? Explain with an example how synchronization is implemented in Java.	10	L2	4	1
5. a)	Summarize the concept of Thread Priorities in Java.	5	L1	3	1
b)	List and explain any 5 built in exceptions defined in java.lang.	5	L2	4	1
c)	Build a Java program that creates multiple threads. First thread displays "Good Morning" every one second, the second thread displays "Hello" in every two seconds and the third thread displays "welcome" in every three seconds.	10	L3	4	2
6. a)	Write a Java program to copy the contents of two files into one file.	5	L1	4	1
b)	What is an Interface? Explain how the interfaces are defined and implemented in Java.	5	L2	3	1
c)	Explain the following with Java code snippets: i) try ii) catch iii) finally iv) throw v) throws	10	L2	3	1
Unit – III					
7. a)	List any 5 differences between AWT and Swing.	5	L1	5	1
b)	Explain any 5 types of MOUSE_EVENT class.	5	L2	5	1
c)	Write a Swing program that inputs three floating point numbers from the user and displays sum, average these three numbers.	10	L1	5	1
8. a)	Develop a simple swing application to display the array of items using JList.	5	L3	5	2
b)	Briefly explain the concept of Model View Controller.	5	L2	5	1
c)	Develop a swing program to demonstrate two JRadioButton named male and female when either buttons pressed it should display its respective labels.	10	L3	5	2

BT* Bloom's Taxonomy, L* Level; CO* Course Outcome; PO* Program Outcome
