Sixth Semester B.E. (E&C) (Credit System) Degree Examinations
May - June 2023

20ECE75 - OBJECT ORIENTED PROGRAMMING IN JAVA

Duration: 3 Hours

Max. Marks: 100

Note: Answer Five full questions choosing Two full questions from Unit – I & Unit – II each and One full question from Unit – III.

Unit – I		Marks	BT*	CO*	PO*
1. a)	List all the primitive types in java and briefly explain any four Java buzzwords.	10	L*2	1	1
b)	With the help of simple Java program differentiate between for loop and for-each loop.	10	L3	1	1
2. a)	Illustrate what are control statements in Java? Give the syntax of all control statements.	10	L2	1	1
b)	Write a Java program to implement a calculator using a switch statement. The program should take two numbers and an operator as input from the user and perform the appropriate operation. The operator can be one of the following: +, -, *, /.	10	L3	2	1
3. a)	What are Constructors in Java and explain different types of constructors using a simple program.	10	L3	2	1
b)	Write a Java program which has following requirements: - Create a public class called <i>Addition</i>. - Using method overloading concept, declare an instance method with two parameters a and b having data type int and another method with three parameters a, b, and c having data type int. - Parameters of methods must be taken from the user. - With the help of object call the methods in main class named test and print the output.	10	L3	2	1
Unit – II					
4. a)	Using Java code explain the two uses of SUPER keyword in Java.	10	L3	3	1
b)	Differentiate packages and interface in java and give a sample java code for each.	10	L2	3	1
5. a)	How to handle multiple exceptions in Java? Explain the concept with an example.	10	L2	3	1
b)	Illustrate in detail the life cycle of servlet.	10	L3	4	1
6. a)	Explain the basics of enumerations with respect to java. And also bring out the difference between Abstract Class and Final Class.	10	L2	4	1
b)	Illustrate in detail the life cycle of Thread.	10	L2	4	1
Unit – III					
7. a)	Explain all the types of loops in JavaScript with the help of code.	10	L2	5	1
b)	Explain the elements of JSP and bring out the advantages of JSP.	10	L2	5	1
8. a)	Briefly explain HTML DOM. How to invoke an applet?	10	L2	5	1
b)	Illustrate in detail the life cycle of an Applet.	10	L2	5	1

BT* Bloom's Taxonomy, L* Level;

CO* Course Outcome; PO* Program Outcome
