5. a) Read the passage and answer the questions given below: 10 L3 02 1,4,7,8
- Teaching English is no easy feat. With a variety of different skill levels in every classroom, teachers must employ effective strategies that allow each student to learn the material. Whether the class focuses on literature, grammar, or language skills, teaching strategies come in handy for many English teachers.

One of the strategies, the Cooperative learning is useful for English teachers who incorporate literature into their classroom. Cooperative learning requires students to discuss a piece of literature in small groups. By allowing the students to engage in meaningful discussion, they begin to learn to analyze literature and participate in an educational process that they will find more interesting than a general lecture on a chapter in a book.

Depending on the grade level taught and the type of material assigned based on the curriculum plan, English teachers will have to try more strategies to make their classroom work. The same strategy may not work from year to year, and teachers may find that while one strategy works for one teacher, it does not work in their classroom. English teachers who are flexible and willing to experiment with teaching strategies are sure to find a winning formula.

- i) Why is teaching English not that easy? (2)
 ii) What is Cooperative Learning and how is it useful? (2)
 iii) Why would the same strategy not work every year? (1)
